

CFG Advanced Python Course - Session 4 (Autumn 2015)

Competition Entry Session

Today's entire session is devoted to teams working together towards their competition ideas & ensuring everyone actually has a team.

This is also an opportunity to ask questions & clarify things that are unclear or not so straight-forward.

Homework

Before next week's session, you should all head to [Mandrill's website](#) and create an account; don't worry about what this is about, we will explain everything and go into details next week.
